Senior Secondary
Ideal Public School

Projects

06/2025 – 07/2025

JARVIS - Voice-Controlled Desktop Assistant
Python, SpeechRecognition, Pyttsx3, NewsAPI
Built a Python-based voice assistant that responds to voice commands using SpeechRecognition and Pyttsx3. Integrated NewsAPI for real-time news updates and used fuzzy string matching to recognize song names from a local library. The assistant can open websites, play music, and speak headlines using a Zira (female) voice. Triggered by the wake word "Jarvis".

02/2024 – 02/ 2024

Car Rental System
Java, OOP, Learned Software Design
• Skills Designed and implemented a car rental system using Java and OOP principles.
• Managed car inventory, customer bookings, and generated reports.
